

PIRANHA V

Natural selection for FRES

An ITAR-free solution designed for the UK armed forces and manufactured in the UK

General Dynamics is the world-leader in 8x8 protected mobility wheeled armoured fighting vehicles.

PIRANHA is the market leader, with 9,300 vehicles delivered to date. Vehicles are currently in service with 21 countries. The latest versions are in combat in Iraq and Afghanistan, where they are mobile, survivable and have 97 per cent availability.

The PIRANHA V, the fifth generation solution, is being developed by General Dynamics specifically to meet the requirements of FRES.

PIRANHA V offers...

- Increased mobility
- Increased baseline GVW to 28 tonnes with uprated driveline
- Increased protection with further growth potential to accommodate additional survivability enhancements
- Enhanced power management to accommodate the increased power demands of a fully-digitised platform
- Potential for hybrid-drive insertion.
